Lake's Level Has Fallen.
The pre-historic Lake Tahoe was larger and deeper than the present lake. During the Neocene epoch and earlier part of the Pleistocene epoch its water stood much higher, but in its overflow it has cut through the lava dams that maintained it at the height. Beaches that mark the former higher level are about 100 feet above the present surface and doubtless the water once stood even higher.

WHAT WE
KNOW...

Our value to you is largely governed by what we know. Potatoes are potatoes; onions are onions; cabbage is cabbage; and you can judge them with your eyes the same as we do.

But all canned goods, manufactured articles and meats are not good—at least, not good enough for us or our customers—and that is where our accumulated knowledge of the merit of the goods of different manufacturers makes this store valuable to you.

We guarantee quality, the equipment of this store and stock, and courteous treatment to all.

THE HOT SPRINGS of Arkansas

More than a mountain resort, more than a fashionable playground—these wonderful springs, with their mysterious health-giving waters, have become world famous as

NATURE'S GREATEST SANITARIUM

set apart by the United States government for the benefit of humanity. Where modern medical science joins hands with the wonderful curative agencies of nature—a retreat for the careworn or suffering in the great, beautiful out-of-doors.

Water is the greatest eliminator of human ills and the Hot Springs of Arkansas are the greatest waters known to mankind

Patronized every year by more than 150,000 people from every part of the world—the recuperating station of our army and navy, the training ground of the world's greatest athletes, the assembling place of statesmen and the rendezvous of society.

There's no Substitute for the Hot Springs Baths

The marvelous cures cannot be exaggerated. No one can afford to deprive himself of the quiet rest, the exhilarating joy and the wonderful toning-up that comes from a course of these baths, coupled with the rehabilitating influences of the mountain ozone and woodland landscape.

Luxurious hotels, medium-priced hotels and high class boarding houses with every modern convenience.
